LANGUAGE CLUB FEEDBACK.

Date: 8 / 5 / 20

Page No.:

It's been 2 years, I had joined language club. After joining this club, I met new people from college, made new friends. There were too many activities held. I learned a lot & had too much fun. I participated in every activity enthusiastically. There feels like a family. Two club co-ordinators - Miss Deepa Patil Ma'am and Miss Mulla Ma'am & all other members of our club are like a beautiful family. I had a stage fear, but now because of this club, I can confidently go up on stage & speak up. Still I lack somewhere, but I will try my best to clear my mistakes & grow my skills & make it much strong.

Apart from activities, we have an E-planet where we display our skills like Book review, Article, Vocabulary, Sketch, riddles, crossword, etc on weekly based themes. That's a very good thing through which we can improve our thinking, writing & reading skills. Thanks to you my co-ordinators, because of you we are here.

One of the best thing we had this year was that, we visited an orphanage every weekend and taught them basic grammar by conducting various activities. Due to that we learnt a lot things & even they gained some knowledge about grammar. It was a best experience.

Our language club is named as 'ACTILS' which means 'Amateurs Choice To Improve Language Skills'. So we are proudly called as 'ACTILS' members. Before starting every session, we greet each other as 'Glad to be an Amateur' which means I am happy to be a learner.

Thank You

Vaishali Sharma, BCAT II

Name - Projakta Ambhi

Glad to be an Amateur !!!

I have been in the language club from two years. Language club gave and taught me a lot of things. In my first year, I had lack of confidence. We done so much activities in language club. From each activity I learned some important lessons. Because of language club I improved my communication skills, vocabulary. After participating activities I learned new words, phrases, etc and had too much fun.

After joining language club I met new people and made new good friends from other classes. One of the best activity we had this year was, we visited an orphanage and taught them english through various activities. It was a wonderful experience.

Language club is like another home and all the actiis are family members. I am so lucky to have mentors like mulla mam and Deepa mam. Because of them & their guidance today we all are here. Proud to be on member of language club. I am always thankful for this.

Thank You.
@Ambhi.

Feedback

Glad to be an amateur!!!

Initially, I would thank to both the teachers, Mulla madam and Deepa madam. Performing in front of crowd, was never a cup of tea for me. I was a shy & timid boy. But when I joined this club, I realised that it was not like before, how I was. It was a change which could not be resisted.

The activities taken by the actils, were so amazing, that even non-performing students like me got attracted to it. I was trained in a manner, like a potter does pottery. My thoughts, ideas, words were channelised to a proper speech of words. Slowly I gained confidence to speak in front of crowd.

One most important thing I learnt is that, 'A person has unimaginable powers, they have to just recognize it & channelise it.' Similarly, I soon recognized that I have guts to speak in front of crowd. But this wasn't easy. And to help me & guide me in this journey of knowledge, both of my teachers have helped me the most. So once again I would thank my teachers & my actils or so called friends for improving me, of what I am today.

"Glad to be an Amateur"

These are the words through which we start our session which means 'I am happy to be a learner.' It's been just a year where I have joined this club. I never thought of being a part of this club but ~~it~~ soon I realised it is worth joining the club.

It helps in self-development, personality development & communication skills get improved. Language club is a place where we have fun with learn process. This club made be understand the actual meaning of learning. It improved my confidence, stage-daring, team-work, my vocabulary, etc.

Our 2 mentors who are rich in knowledge help us to approach new things and learn new things in new way. Our mentors help us in every possible way to make us more effective and guide us to reach our goals. I loved the orphanage activity where we got the chance to teach children. We learn & improve the skills we lack in.

Thankyou ma'am for always helping us in every problem, and giving us knowledge. At start I never participated in ~~set~~ any activities. But then now I try to participate in every activity, which is the biggest change I've in myself.
